

# From 100 to 1.3 Billion

What if 100 disciple-makers followed Jesus' model and duplicated themselves in 11 others every three years. Assuming that 2% of the disciple-makers get "early retirement" (die) every year, how many disciples-makers would be produced by that original core of 100 in 21 years?

In the year	There would be
2008	100
2011	1,034
2014	10,692
2017	110,551
2020	1,143,095
2023	11,819,598
2026	122,214,640
2029	1,263,699,377
